Sir:

In reply to the Office Action mailed November 7, 2001, please reconsider the application in light of the following Amendment:

IN THE CLAIMS:

Please replace claim 1 with the following claim:

1. (Twice Amended) A device for controlling an over-rolling of a vehicle having a vehicle body, wheels, a steering system, and a brake system, the device comprising:
- means for providing a first parameter quantity indicative of a rolling amount of the vehicle body,
 - means for providing a second parameter quantity indicative of a change rate of the rolling amount of the vehicle body, and
 - means for controlling of the brake system such that the brake system is actuated to accomplish a target deceleration of the vehicle when the first parameter quantity exceeds a threshold value predetermined therefor so as to counteract a further increase of the
